ABDULLAH AL AHAD ABIR

Software Quality Assurance Engineer

Dhaka, Bangladesh | +88 01602544175 | abdullahabir888@gmail.com
linkedin

SQA Engineer with 3+ years of testing web apps, mobile apps and REST APIs. I review requirements, turn them into test scenarios and test cases, run functional, regression and integration testing, and log and track every defect in Jira until the fix is verified. Now QA Project Lead at Banglalink for the Hope and D2D projects, working closely with developers and project teams so each release matches its specs before it ships.

TECHNICAL SKILLS

QA Process: Requirement review, test scenario and test case design, test planning, bug reporting and tracking, fix verification, test data preparation
Testing: Functional, Regression, Integration, Performance, Black-box, Cross-browser, Usability, Mobile and REST API testing
Automation & Tools: Selenium, TestNG, Cucumber, Postman, Jira, Git/GitHub, IntelliJ IDEA, VS Code
Languages & Databases: Java, JavaScript, Python, C#, C++, SQL (MySQL), Firebase
Methodologies: SDLC, STLC, Agile, Continuous Integration

WORK EXPERIENCE

SQA Officer Jan 2025 - Present
Response Limited (deployed at Banglalink) Dhaka, Bangladesh

- **QA Project Lead, Hope and D2D:** own the test plans, coordinate testing with developers and product, and report test status and open defects to each project team.
- Review functional specs and requirements, then write test scenarios and test cases before each cycle.
- Run functional, regression and integration testing on web and mobile, including the MyBL and Ryze apps.
- Log, document and track defects in Jira, and verify each fix with developers before release.
- Led D2D QA through to a successful launch, and tested Techvan and Mukto Pay until both went live.

SQA Engineer Jul 2024 - Jan 2025
Coderslive.net Dhaka, Bangladesh

- Tested web and mobile products against requirements, catching functional bugs and usability problems before release.
- Wrote and ran functional, regression, integration and performance test cases.

SQA Engineer Apr 2024 - Jul 2024
M360 ICT Dhaka, Bangladesh

- Automation cut manual testing time and made releases faster.
- Ran functional, integration and performance tests against business requirements.
- **Project:** Trabill

Jr. Quality Analyst Jul 2023 - Apr 2024
Alagzoo Software Dhaka, Bangladesh

- Tested web apps manually and reported bugs, usability issues and functional defects in Jira.
- Wrote test cases and followed up with developers until defects were fixed.
- **Projects:** DigitalRx, DigitalPharmacy

PROJECT

Hotel Reservation Automation Testing | Java, Selenium, TestNG

- Built an automated functional test suite for a hotel booking website, which raised test coverage and cut manual test time.

EDUCATION

PMSCS (Professional master's in computer science), Jahangirnagar University 2025 - Present
B.Sc in Computer Science & Engineering, BUBT | CGPA 3.28/4.00 2024

CERTIFICATION, RESEARCH & LEADERSHIP

Certification: Software Quality Assurance: Manual & Automation Testing, Coderslive.net
Published Research: An Empirical Study to Evaluate the Usability of a Food Delivery Application Using HCI Framework
General Secretary: IEEE BUBT Computer Society Student Branch Chapter. Organized tech events and student activities.
Languages: Bengali (native), English (professional)
